FINANCIAL INCLUSION & AI COPILOT

Sahayak AI (Ubanku)

Source-Grounded Financial Journey Copilot & Next-Generation Consumer Credit Super-App

RBI & IRDAI Grounded

Verified regulatory clause citations on Key Fact Statements (KFS), APR transparency, and debt recovery fair practice codes.

Dual-Modal Voice & Chat

Real-time Indic speech conversation powered by Sarvam AI and Groq Whisper across English, Hindi, and Marathi.

Double-Entry Wallet Ledger

Strict idempotency locks (X-Idempotency-Key), atomic debit-credit balance validation, and automated debt portfolio audits.

Seed / Pre-Series A Round | Confidential Presentation | October 2026

THE PROBLEM

The $350B Indian Digital Lending Market is Broken for Consumers

Information Asymmetry & Hidden Charges

Digital borrowers are routinely blind to true APR, upfront processing deductions, and foreclosure penalties. Most have never received or understood an official Key Fact Statement (KFS).

CRITICAL METRIC

74% of retail borrowers unaware of annual percentage rates (APR)

Harassment & Unregulated Recovery

Despite strict RBI Fair Practice Codes limiting collection contact between 8 AM and 7 PM, recovery agents frequently violate privacy, call at midnight, and exploit consumer fear.

CRITICAL METRIC

Over 120,000 borrower grievance complaints registered in 2024

High Rejection & Fragmented Documents

Borrowers submit incomplete paperwork across fragmented portals without knowing eligibility prerequisites, destroying their credit profile with multiple hard bureau inquiries.

CRITICAL METRIC

62% rejection rate on unsecured tier-2/3 digital loan applications

THE SOLUTION

Sahayak AI: Empowering Borrowers with Verifiable Financial Intelligence

100% Grounded Regulatory RAG

Every response cites specific clauses from RBI Digital Lending Guidelines, KFS Directions, IRDAI free-look norms, and NPCI UPI auto-reversal rules. Eliminates hallucinations.

Multilingual Indic Voice Copilot

Native speech interface in English, Hindi, and Marathi powered by Sarvam AI Indic models, Groq Whisper, and real-time browser speech recognition.

Deterministic Financial Engine

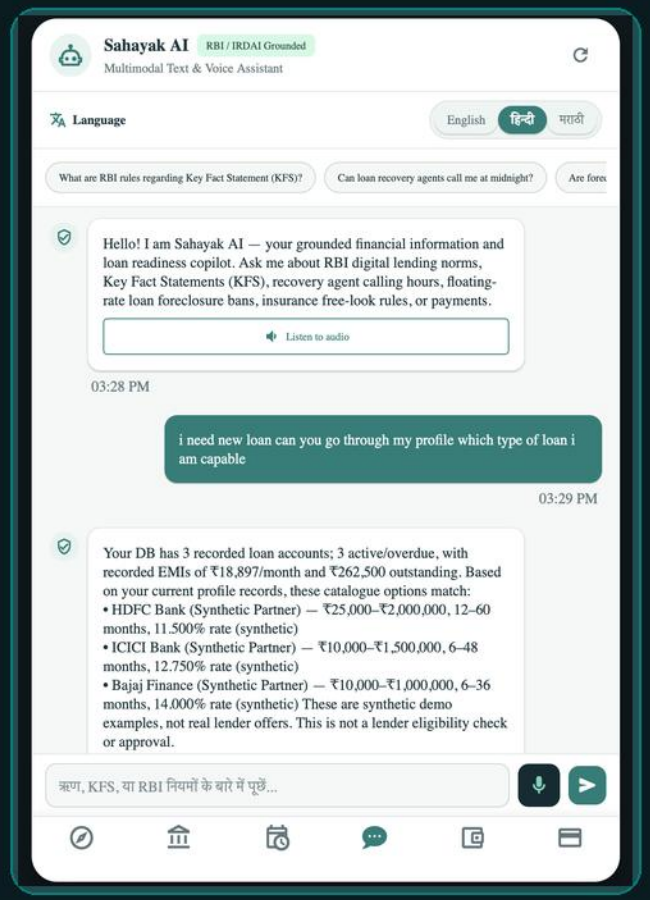

Exact mathematical calculations for EMIs, APR, and total repayment schedules computed deterministically via backend algorithms—never left to model probability.

Preflight Readiness & Debt Audit

Centralized loan discovery catalogue, document readiness checking, debt-to-income (DTI) ratio tracking, and atomic double-entry ledger transfers.

PRODUCT DEEP DIVE | AI COPILOT

Multimodal Voice & Text Assistant with Verifiable Citations

Grounded Regulatory Citations

RBI Master Direction on Key Fact Statement (KFS) & Fair Practices

- Verifiable clause citations displayed directly beneath assistant bubbles.
- Zero tolerance for fabricated lender approvals or predictive credit bias.
- Clear disclaimers stating underwriting boundaries and grievance redressal steps.

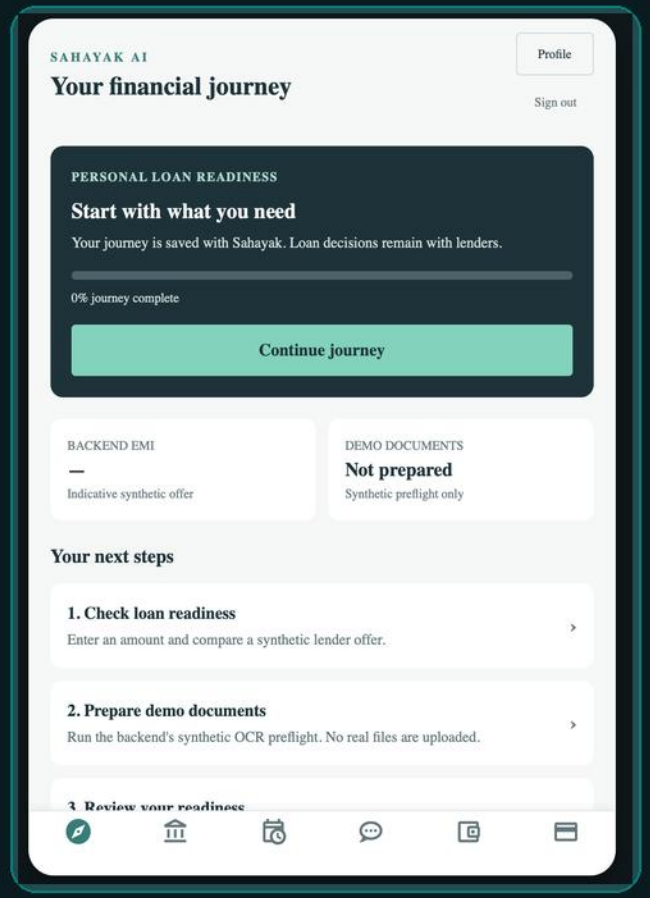

Real-Time Indic Voice-to-Voice Architecture

Sarvam AI Indic Models + Groq Whisper + Low-Latency Streaming

- 1-Tap Language Switching: Instant toggle between English, Hindi, and Marathi.
- Real-Time Audio Normalization: Automatic magic-byte sniffing (WebM, AAC, WAV).
- Hardware Disconnect Lifecycle: Detects mic mute/unmute & 2.5s silence auto-send.
- High-Reliability Audio Pipeline: Zero-dependency Google TTS fallback stream.

PRODUCT DEEP DIVE | LOAN READINESS

Structured Financial Readiness Journey & Consent Auditing

End-to-End Readiness Pipeline

Finite State Machine (FSM) Loan Preparation

- 4-Stage Workflow: Eligibility Pre-qualification -> Consent -> Document Preflight -> Handoff.
- Eliminates blind applications that trigger damaging credit bureau hard inquiries.
- Centralized Loan Catalogue matching verified NBFC/Bank loan products to user profile.

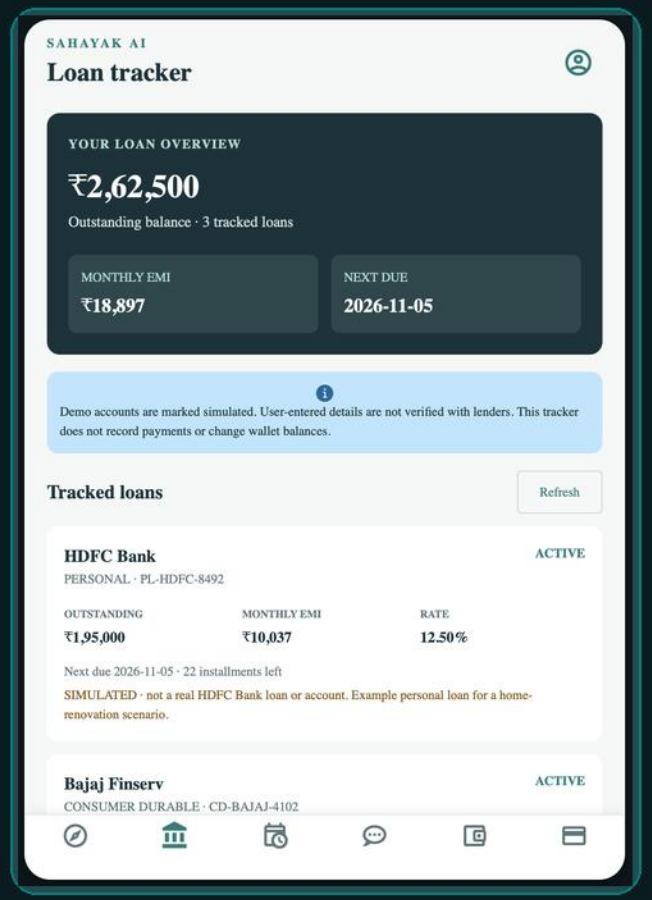

DPDP Act & RBI Audited Consent Framework

Explicit, Purpose-Specific Cryptographic Consent Records

- Purpose-Scoped Approvals: User consents explicitly for document readiness checks.
- Audit-Proof Storage: Timestamped consent records tied to HMAC user identity.
- Synthetic OCR Preflight: Validates salary slips, PAN, and address before handoff.
- Dramatically cuts lender partner customer acquisition costs (CAC).

PRODUCT DEEP DIVE | DEBT AUDIT

Consolidated Debt Portfolio & Repayment Health Tracker

Centralized Debt Liability Dashboard

Holistic Tracking Across Multiple Lenders and Credit Cards

- Aggregated View: Personal loans, vehicle finance, mortgages, and revolving credit.
- Real-Time Debt-to-Income (DTI) computation prevents over-leveraging.
- Alerts borrowers when floating rate loan prepayment penalties are unlawfully applied.

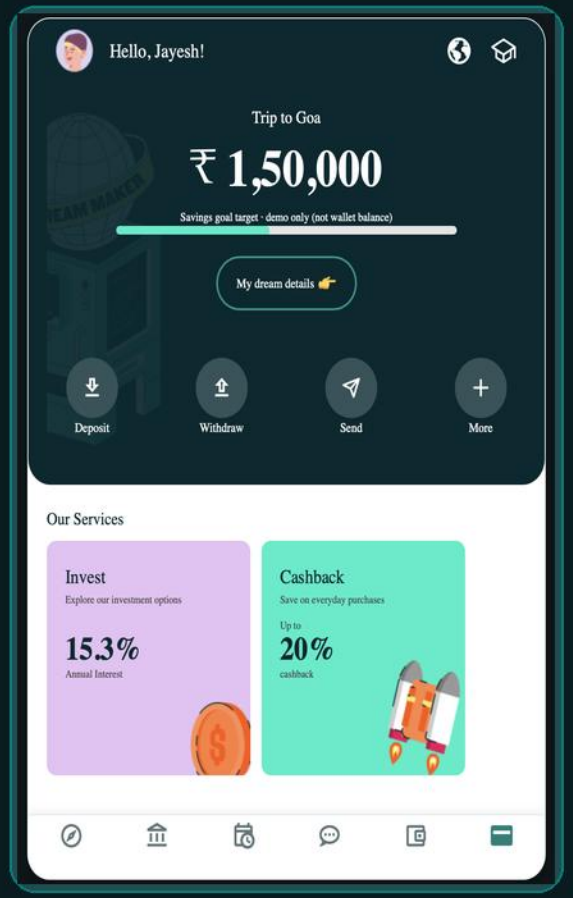

Automated Bill Scheduling & NPCI Reversals

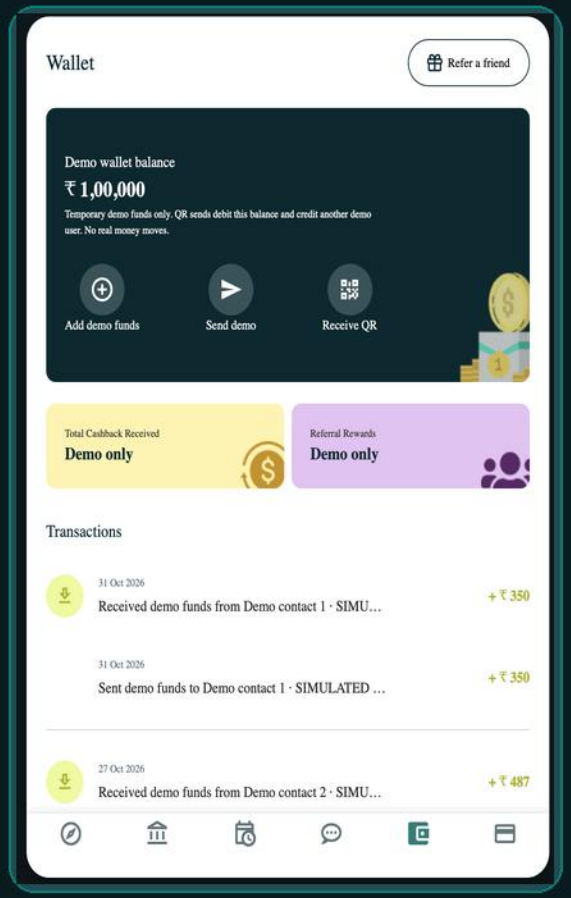

Proactive Due Date Protection & Failed Payment Resolution

- Bill Schedule Engine: Proactive reminders prevent unintentional EMI bounce charges.
- NPCI UPI T+1 Resolution: Automatic escalation workflows for debited-but-uncredited UPI.
- Historical Audit Log: Verifiable repayment records to prove creditworthiness.

PRODUCT DEEP DIVE | FINTECH INFRASTRUCTURE

Unified Banking Overview & Double-Entry Transaction Ledger

Unified Fintech Dashboard

Clean, Frictionless Banking & Credit Navigation

- Consolidated account balances, recent activities & quick actions.
- Icon-only navigation bar maximizing mobile screen real estate.
- High-accessibility typography with native dark/light token design.

Double-Entry Ledger & Idempotency

Enterprise Transactional Reliability

- Atomic Double-Entry: Strict paired debit/credit accounting.
- X-Idempotency-Key Filter: Prevents duplicate debits on retries.
- Instant QR-based peer-to-peer transfers with status polling.
- PII Masking: Automatic sanitization of PAN & Account Numbers.

MARKET, ROADMAP & THE ASK

High-Margin Economics, Structured Roadmap, and $1.5M Seed Financing

Market & Unit Economics

B2B2C Referral & SaaS Revenue

Addressable Opportunity:

- $350B Indian Digital Lending TAM
- 180M Vernacular Borrowers in SAM
- 12M Active Digital Credit Applicants

Monetization Channels:

- 1.5% - 2.5% Origination Referral Fee from partner NBFCs and Banks
- Rs 149/mo Debt Advisory Subscription
- Enterprise White-Label Copilot SDK

Execution Roadmap

From Working Copilot to Scale

Phase 1: Foundation (Completed)

- Dual-Modal Voice & Chat Copilot
- RBI KFS & Conduct Grounded RAG
- 44 Passing Automated Pytests

Phase 2: Data Aggregation (Q1-Q2)

- RBI Account Aggregator (AA) integration
- Automated bank statement OCR
- Target: 100,000 Verified Borrowers

Phase 3: Scale & Co-Lending (Q3-Q4)

- Direct NBFC Co-lending syndication
- Target: Rs 500 Cr Monthly Volume

$1.5M Seed Financing

18-Month Runway to Series A

Use of Funds Allocation:

- 45% Engineering & Indic AI R&D
- 30% Lender Partnerships & AA Feeds
- 15% Security Audits & SOC-2 / CERT-In
- 10% Working Capital & Operations
